**About CoCoBoLo :**

*At CoCoBoLo, we believe in providing trendy and quality products, competitive pricing that backed by excellent service. Introducing alternative Interior Laminate choice that would unleash your wildest imagination and creativity.*

**Benefits :**

- High heat, Abrasian and Chemical resistant.
- Value for money over time.
- Better quality end product.
- More durable as it is harder and waterproof.
- Low maintenance cost.
- No change of color easily.
- No delamination to the surface as it is fused onto core material under high heat and high pressure.

**Care and Maintenance :**

Laminates are durable and resistant to abrasions and scratches, nonetheless, they would still need proper care to optimise lifespan.

- Our Products are easy to clean : just use mild household cleaner to clean and rinse with clean water. Dry off with soft cloth.
- Avoid using strong cleaning detergent containing acid, alkaline and solvent as they may damage the surface of Laminate.
- Do not expose to direct high heat, direct sun for prolong basis.
- Do not hammer or use sharp objects on the Laminate surface.

**Products Available :**

- 3.6mm x 4' x 8' lamminate on plywood
- 4' x 8' x 0.7mm (+/- 10%) laminate
- matching PVC Edging (50mm & 60mm).
